NDERON BEQIRI

London, Barnet · 07392 320863 · beqirinderon@gmail.com

PROFILE (PORTFOLIO)

Full-stack developer with experience building web apps, automation tools, and Telegram bots to solve real-world problems. I've delivered end-to-end features using Python, JavaScript, and SQL — from backend logic to frontend design — and built bots that streamline community workflows. I love breaking down complex problems into working code and collaborating with others to produce fast, clean solutions. Recently completed a Computer Science degree from the University of Nottingham and now looking to join a team where I can contribute from day one and continue levelling up my skillset.

TECHNICAL PROJECTS

Telegram Bot Suite   Ongoing

Personal Project · Python, Telegram API, Webhooks

- ‣ Created Python-based Telegram bots to automate content creation for marketing materials
- ‣ Built bots that format user inputs into standardised marketing posts and FAQ responses
- ‣ Integrated uptime monitoring and automated restarts using Cron and shell scripting
- ‣ Currently implementing inline keyboards, user roles, and custom command handling
- ‣ Reduced manual workload in repetitive community content creation tasks

Skills Tracker Web App   University Capstone Project

HTML, CSS, Python, SQL, JavaScript

- ‣ Collaborative full-stack application to help users assess and track cybersecurity skills
- ‣ Co-developed user interface, backend logic, and database integration using Python, SQL, HTML/CSS/JS
- ‣ Delivered core features across a 6-person team, ensuring cohesive UI and backend performance
- ‣ Authored full technical and user documentation
- ‣ Coordinated QA and implemented stakeholder feedback that improved usability

SKILLS

Languages & Technologies
- ‣ Python, JavaScript, SQL, HTML, CSS, Java, C, C++

Frameworks & Tools
- ‣ Git, VS Code, Telegram Bot API, Jira, Ubuntu, Excel

Technical Strengths
- ‣ Full-stack development
- ‣ Automation scripting
- ‣ API integration
- ‣ Technical documentation
- ‣ Telegram bot creation

Soft Skills
- ‣ Problem-solving
- ‣ Clear communication
- ‣ Team collaboration
- ‣ Initiative
- ‣ Time management

EXPERIENCE

Project & Operations Assistant
Jun 2022 – Jul 2022

EL Joinery, London

- Supported client joinery projects from planning through to quoting, materials, and delivery
- Built Excel trackers for costs and margins
- Sourced time and cost saving alternatives on jobs, reducing material spend
- Participated in client meetings and contributed to final design delivery and sign-off

Web & Marketing Assistant
Jul 2021 – Aug 2021

Worxzone, Watford

- Assisted with website layout planning and structure alongside developers
- Processed and categorised customer requests via email
- Proposed alternative product solutions for urgent requests, improving satisfaction and retention
- Supported refurbishment work across multiple residential projects

Retail Stylist
Jul 2023 – Sep 2023

Levi's, London

- Advised customers on product fit, styling, and trends, driving an increase in units per transaction
- Maintained expert knowledge across products and consistently hit targets for KPIs

EDUCATION

BSc (Hons) Computer Science (2:1)
Graduated 2024

University of Nottingham

A-Levels
2021

Mill Hill County High School

Mathematics (A*) · Computer Science (A) · Geography (B)

ACHIEVEMENTS

- ★ Multiple Gold & Silver UKMT Maths Awards
- ★ Consistently strong feedback from clients, team leads, and project stakeholders
